European DAMON forum

16th - 18th April **2015**

◇ Presentation:

We are very pleased to present the European Damon Forum 2015 that will be held at the International Convention Center in the beautiful city of Barcelona, Spain, from the 16th to the 18th of April 2015.

In this event, organized by Ormco Europe, we will be able to learn the most recent advances in orthodontic treatment, to experience the Damon System and get to know the latest digital technologies.

In order to embrace these objectives, we have designed a three day program, including more than 20 prestigious international speakers. There will be a Pre-congress on the 16th of April 2015, where we will have more than ten different workshops, and two days of Main Sessions, 17th and 18th of April 2015.

On Friday, 17th of April, we will be having a wonderful gala dinner for all of the participants, where you will be able to exchange opinions and interact with colleagues from all over Europe.

To meet your expectations, we have invested a lot of time and effort, hoping to create an event as successful as possible which will be remembered in the future.

Javier Vidal

Sales Director Europe Direct Countries EMEA

Xavier Cherbavaz

Sales Director France & Emerging Markets
